ROOSEVELT'S CAMP GUARDED.

MOUNTAINEERS KEEP A PATROL ABOUT HUNTING GROUNDS.

They Want the President to Visit Their Liberty School When He Changes Camp-Loeb Rides In to Confer With His Chief-Dr. Lambert Shot a Bobeat.

GLENWOOD SPRINGS, Col., April 19 .- Secretary Loeb left here this morning for New Castle, at which point he will mount a horse and ride to the Presidential camp in the mountains. Mr. Loeb is accompanied by Courier Chapman and Capt. Joe C. Austin. The latter is a ranchman and came in with Chapman last night. Secretary Loeb will return to the Springs

to-morrow after a night in camp. Secretary Loeb late last night gave out an official statement containing Chapman's report of the killing of a bear by the President. On the same day, Monday, Dr. Lambert shot a bobcat. Both skins are being prepared at a taxidermist's here.

The huntsmen in this country are talking about the good luck that has attended the efforts of the Presidential party.

"A grizzly and a bobcat in three days is all right, and a great deal better than most people do in weeks," said an old veteran. The Penny ranch, on which the Presicent is now operating, will probably be deserted on Friday. The party is now in the East Divide and intends to begin business Saturday or Monday with the denizens

ness Saturday or Monday with the denizens of the West Divide.

Capt. Austin wants President Roosevelt to visit the Liberty school, which is up in the mountains not far from Camp Liberty. The school is attended by the children of the ranchmen and mountaineers. Many of the boys and girls travel miles in the saddle every day to get instruction.

"The children and their mothers are just crazy to see President Roosevelt," said Capt. Austin. "We have never had a President up our way before. We want to see this one because he is a Western man and one of our kind. He understands us and we understand him." Capt. Austin will take up with Secretary Loeb the queswill take up with Secretary Loeb the question of the President addressing the mountaineers at Liberty school.

The conference will be held during the gry, ragged and uncared for trate Deuel turned the child Asylum of the Sisters of S Blauvelt, Rockland county.

ride up the mountains. Capt. Austin says the President will pass near the school when he pulls up stakes and transfers his camp from the East to the West Divide. "That's when we want him to talk to us," said Capt.

Blauver, Rockland County.

According to Mr. Baum, Oddo paid regularly the \$4 a week which Magistrate Deuel to his place again. Frank, in all the nine ordered him to pay the society, being \$1 a week for each child. I week for each child. I be a week for each child. I be a week for each child. I be a week for each child.

Austin.

Both Courier Chapman and Capt. Austin say that the President's desire that he and his party be left to themselves has been respected. "We mountaineers won't bother him and others must not," said Austin. "We want him to enjoy himself and to leave with pleasant reprovies and numerous." with pleasant memories and numerous trophies of the hunt. We have practically established a patrol around the hunting grounds, and everybody must keep off while the President and his friends are there."

On his next visit to the camp Secretary Loeb will probably remain with the party two or three days. Philip B. Steward of Colorado Springs will quit the camp the latter part of the week, returning to his home.

BOOM IN SHIPBUILDING.

"Iron Age" Reports Increased Demand From Mercantile Marine Builders.

That the shipbuilding industry is picking up is the opinion of the Iron Age, which records this week the receipt of inquiries by the steel plate makers from the Atlantic coast shipyards. These orders are not for naval construction work, but come from the merchant marine builders.

The American Locomotive Company, according to a Baltimore despatch yester-day, has secured from the Baltimore and Ohio Railroad one of the largest orders for locomotives ever placed by any railroad. The order is said to be in excess of \$3,000,000, and calls for the maximum capacity of the locomotive company's plant for the rest of the year. The order completes the equipment of the Baltimore and Ohio for

equipment of the Baltimore and Ohio for the year.

There has been further good booking of steel rail orders during the week, says the Iron Age. The orders have come chiefly from the West and Southwest, and the Chicago mills have only been able to handle a part of the demand, the overflow going to works further East. The Lackawanna has let contracts for nearly 10,000 tons. Cuban and Central American railroads have also placed orders. The Panama Railroad has let a contract for 3,500 tons.

The latest reports from the Mesaba iron range show that the labor situation in that district is now pretty well in hand and

district is now pretty well in hand and that there is little danger of a serious in-terruption in operations. Work was partly or wholly resumed at some of the mines

yesterday.

The tonnage coming to the bridge shops is exceedingly heavy. The leading in-terest has been flooded with inquiries, which during the week aggregated more than those of the previous month. They include railroad bridges and steel structures office structures the demand has not yet

CLOSING OUT LONG WHEAT.

Bull Clique Apparently Unloading Without Any Fireworks.

CHICAGO, April 19.-When the closing bell struck on the Board of Trade to-day the leading question with the wheat trade was: "Did the bull clique get out of 2,000,000

was: "Did the bull clique get out of 2,000,000 or 3,000,000 bushels through two or three houses without starting anything like a panic in the pit?"

The May price was pushed up to \$1.15½ early on buying which was traced to Armour the brokers thought. While this was going on Counselman brokers were sellers of 500,000 or 750,000 bushels. Brokers thought to be acting for the Gates clique took a hand in the selling and the May price broke from \$1.15½ to \$1.13½. There are hints that there was some understanding between that there was some understanding between the big bull leaders and the big shorts. For this reason many were predicting an early-end of the deal without any fireworks.

BOARD FOR A DEAD CHILD

PAID TO GERRY SOCIETY BY FATHER LEFT IN IGNORANCE.

Six Weeks After His Daughter Was Buried He Learned of It When He Sought to Get Her Back by Writ-Society Resists Giving Him His Other Children.

Lawyer Joseph M. Baum charged yesterday, before Supreme Court Justice Giegerich, that the Gerry society had failed to notify his client, Joseph Oddo, of the death of one of Oddo's children, who were committed to the society's custody recently, and had continued to receive and accept Oddo's payments of \$1 a week for the child's support for six weeks after her death on March 4, until Tuesday last, when the father discovered that the child was dead. Counsel for the society said it was not the society's fault that the father

had not been informed at once. Oddo is an Italian shipping clerk and earns about \$15 a week. In December last his wife was committed to Ward's Island as insane. Officer Dent of the Gerry society took charge of the four children. whom he found in Oddo's apartments. Dent reported that the children were hungry, ragged and uncared for, and Magistrate Deuel turned the children over to the Asylum of the Sisters of St. Dominic at

Latterly, Oddo's worldly fortunes have somewhat improved, and he has established a new home at 501 Hicks street, Brooklyn. On April 12 he went to the society to get his chi'd en beck. He was told that the matter would be considered on April 17. On that day he was told that he could not have the

children.

Oddo consulted Baum, who sued out a writ of habeas corpus for the four little Oddos and went up to Blauvelt to serve it on the Mother Superior. She told him that little Olga had died six weeks ago. The three others—all boys—were before Justice Giagorich vesteries.

Giegerich yesterday.

Mr. Baum asked Justice Giegerich to make
an order directing the society to surrender
the three other children, and to return to

Oddo the money he has been paying for his dead child's maintenance.

Lawyer C. J. Sullivan for the society said that Oddo had failed to satisfy the Gerry officers that his home was a suitable one for his children, but that another inction of it would be made pending the

Court's decision.

"But why didn't you notify us that Olga was dead?" Mr. Baum asked.

Mr. Sullivan replied that when the notification of death was received from the asylum, Oddo could not be found. "But at least you could have told him when he went to see you last week and on Monday." Mr. Baum retorted.

Monday," Mr. Baum retorted.

Mr. Sullivan said that the matter had probably been overlooked then. Mr. Baum then asked Justice Giegerich to direct the society, pending his decision, to inform Oddo where his daughter was buried.

"Surely there is no objection to that?"

Justice Giegerich said, turning to Mr. Sullivan.

"None at all," the lawyer replied. "She was buried in the asylum graveyard."

Pending the decision. the three boys were sent back to the asylum after a hug from their weeping father.

U. P. MEN SELL NOR. SECURITIES? Wall Street Is Coming Around to Believe That That's It.

Although no confirmation could be obained from the offices or directors of the Union Pacific Railroad, the story was quite generally believed in Wall Street yesterday that Union Pacific interests have been rapidly disposing of their \$82,000,000 of Northern Securities stock. One account had it that about \$10,000,000 of stock had been sold. In other quarters it was said that this figure was too high. One reason that this figure was too figh. One reason that has been assigned for the supposed action of the Union Pacific was the existence of laws in certain Western States forbidding a railroad to own stock in a parallel or competing line.

parallel or competing line.

A more generally accepted theory yesterday was that the Union Pacific had decided that Mr. Hill was so strongly entrenched in Northern Pacific that there was no use disputing control and that advantage might be taken of the high prices which Northern Securities have brought to dispose of the stock. When one of the directors of the Union Pacific Railroad was asked if he could confirm or deny the current story he said "You will have to make your own guess." There was another drop of about five points in Nowhern Securities on the curb yesterday.

Roundsman's Remarkable Records.

Roundsman William H. Wilbur of the Liberty avenue station, Brooklyn, has retired after twenty-five years on the force, during which time not a single complaint was made against him. Chief Clerk Ripp's records do not offer a single other instance of such a remarkable achievement. Wilbur's oldest son is 33 years of age and his youngest child 5. Between the youngest and the nextolder there was a gap of twenty-

KILLED ON RUN HE BALKED AT

BIG FIRE HORSE FRANK SEEMED TO HAVE PREMONITION.

Driver's Error Took Engine 33 Far From Scene of Alarm-Then Car Hit Frank -Alarm a False One, Anyway-Man Arrested Says He's Hoboken Fire Chief.

Frank, the bay off horse of Engine 33 was killed yesterday in a collision with a street car. Big Frank came out of his stall when the alarm began to sound and ran for his place on the outside of the team. When he was almost under the suspended harness he whirled up on his hind legs and ran back Murphy, the driver, didn't know what to make of it.

Perhaps, because his mind was busy with this worry, or perhaps because the night watch was indistinct in shouting the number of the alarm as the delayed engine shot out the door into the street, Murphy thought the alarm was from box 242 at Houston and Allen streets instead of from box 342, at Thirteenth street and Fourth avenue. Murphy went all the way to the wrong place before he discovered the mistake.

There was nothing to do then but make all possible speed back to Thirteenth street and Fourth avenue. As he was slewing along the Second street car track a Second avenue car came around the curve on him. Murphy swung his team around to drive them up on the sidewalk out of the way. but they had too much headway, and the motorman, whirling his brake like a demon could not stop the car. The fender knocked the feet from under big Frank and then the front of the car dragged him twenty paces down the street

The big horse kicked himself free when the car stopped, made one or two pitiful efforts to get up into the harness again, and toppled over his on side and died. There was no time for mourning or for tenderness, old friend though he was of every man on the engine. Myrphy leaped down, slashed the harness free with a few quick strokes of his knife and the other two horses went on with the engine, leaving Frank dead in the gutter.

When Engine 33 mally reached the place whence the alarm had really sounded the news that Frank was dead, uselessly dead on a mistaken run, by no means lessened the bad temper of the officers and men of the department who were storming around the corner. the car stopped, made one or two pitiful

the corner.
There had been no fire. The alarm had

There had been no fire. The alarm had been rung when a party of three, of whom a man calling himself William McGrath of 58 Washington street, Hoboken, was one, were skylarking about the box at 3 in the morning. McGrath said he was chief of the Hoboken fire department.

When he was taken before Magistrate Flammer McGrath said he didn't remember anything about turning in any selection.

Battalion Chief Maher said the didn't remember anything about turning in any alarm. Battalion Chief Maher said that he did not want to prosecute the chief of the department of a near by city, and the Magistrate, in some doubt, let McGrath go.

Frank's place was filled with a green horse yesterday morning.

LEAD COMBINES.

Guggenheim Exploration Company Likely to Take Over Central Lead.

The tendency toward consolidation in the smeltering and refining business was further shown yesterday when announcement was made that the Central Lead Company may soon be taken over by the Guggenheim Exploration Company. Ne-gotiations are now pending and will probably be completed within a few days. The Central Lead Company owns large lead

Central Lead Company owns large lead mines in Missouri, its capital stock is \$1,000,000 and it was said that the price to be paid for the property is about \$1.630,000. The Guggenheim Exploration Company is closely associated with the American Smelting and Refining Company.

The proposed alliance of the United Lead Company which is controlled by the American Smelting and Refining interests, and the National Lead Company is practically complete except for a few detal, according to a statement made yesterdny at the office of M. Guggenheim Sons. The stockholders of the National Lead Company hold their annual meeting in Jersey City to-day and some announcement may be made after the meeting.

LOAN COMPANY CRITICIZED. Court Gives Judgment for Defense in Suit Over Mortgage.

Supreme Court Justice Dickey in Brooklyn yesterday severely criticized the Guardthe company was suing on a mortgage on her home.

It appears that in June, 1903, Mrs. Laura M. Weeks of Smart avenue, Flushing, desired to raise \$800 on a mortgage on her house. She was referred to the Guardian Savings and Loan Company. She signed several papers, all of which she supposed were presiminaries toward securing the mortgage. Among them was one for a mortgage of \$900.

Meantime Henry Bonavitz, a lawyer of Fulton street, Brooklyn, offered to make the loan. Mrs. Weeks accepted and the transaction was closed. Subsequently the loan company demanded that she fulfill loan company demanded that she fulfill an alleged agreement to pay \$10 a week on the mortgage that she had signed with them, on which they had paid her nothing, according to the testimony. Upon her refusal the company began suit for the full amount of the mortgage, with interest and charges, a total of \$1.221.12.

Justice Dickey spoke bitterly concerning the methods of the company or its agents in attempting to impose upon the woman and gave juggment for the defense.

GET HALF REWARD AFTER YEARS. Detectives Who Caught Joe Killeran Had

to Give the Other Half to a Lawyer. Detective Sergeants Charles Stripp and John J. Cain will receive at last \$250 apiece an Savings and Loan Company and gave of the \$1,000 reward offered for the capture judgment in favor of the defendant, whom of Joe Killoran, alias Joe Howard, one of the three post office thieves who broke out of Ludlow Street Jail on July 4, 1895, locking Sheriff Tamsen's men inside and giving rise to the classic expression "Der chail is

> They landed Killoran in May, 1903. Their lawyer, Abraham J. Rose, gets the other \$500. The post office robbers were United skides prisoners when they escaped, and the United States offered the reward. After the capture of Killoran the detectives had to sue for it in the Court of Claims.

"Clear Nutria" Derbies The Best in the World

THE man who wears a Clear Nutria Derby is recognized first as being willing to pay the price to secure the finest and handsomest Derby Hat that money can buy. In the second place, it indicates his good judgment in paying a dollar more in order to get quality not equalled in any other Derby

The "Clear Nutria" Derby was introduced in New York by JOHN WANAMAKER, because we knew at the time that better Derby hats could be made, and we also knew that New York men would be glad to pay the extra dollar in order to have the very best Derby that could be produced. They are made specially for us by the best hat manu-

facturer in the country. Not only that, but only his most expert workmen of longest experience are allowed to work on Take the best \$5 Derby you know, and set it beside the

Clear Nutria, and even the casual observer will recognize the difference in the fineness of the fur, the beautiful finish and superior trimmings. Our word for it that no finer hat can be bought at any

price than the Clear Nutria Derby at \$6. Of course, we have a complete assortment of other Derbies at \$5, \$3.50, \$3 and \$2.

Men's Hat Store, Second floor, Ninth street.

Men's Cutaway Frock Suits

THERE are hundreds of men who do not believe a Prince Albert to be becoming to them; and Fashion this season has given as full countenance to the popular Cutaway

Frock Coat as to its more pretentious cousin. The favorite materials are black thibets and unfinished worsteds; and this handsome clothing is made up for us by the best manufacturers in the trade. All the particular work on the coats is done by hand. The resulting garments leave little that the custom tailor could improve. Yet their cost is just about half what the tailor would charge, and they are all ready for immediate wear.

Our stock of size-proportions is so ample as to enable us to fit practically every man who comes; and where alterations are necessary, we make them promptly.
